Predict

The above image show is of webpage for rating prediction.

About page: There are 10 inputs on this page some are dropdown and in some we have to write the values. There is a prediction button below, when we enter after all the inputs are feed, prediction value is show below

Wireframe

The wireframe depicts a web browser window with a tab labeled 'webiste' and an address bar containing 'zomato_prediction'. The main content area features a vertical stack of elements: a wide rectangular input field at the top, followed by a box containing the number '1', and then a series of alternating white and gray rectangular boxes. Below these is a box containing the text 'upto 10', followed by another gray box. At the bottom of the stack is a blue button labeled 'Prediction' and a text label 'Prediction text'.
